

## **Replacement Parts Warranty**

All replacement parts supplied by ClairiTech Innovations are covered by a 1 year (12 month) warranty. This warranty is considered to have begun when ClairiTech has determined that a replacement part is required. It covers only a defect in the operation of said replacement part and does not cover any damage to the part from misuse or improperly installed.

Any parts purchased and not installed in the unit can be returned for a refund of the purchase price, shipping excluded, within 30 days of the date of purchase. Return shipping is at the cost of the customer.
